October 15-20th, 2021

"The First Birthday Party Ever!" takes place in the enchanted land of Chuckle Giggle Nu & is a wonderful story about some wacky dinosaurs that planned the very first birthday party ever for a little Pterodactyl named Archie. They call themselves the Party Pals while the adversaries known as the Party Poopers, a Tyrannosaurus Rex and a Albertosaurus, plan to disrupt the party and take the cake all for themselves. The attempt fails and the Party Pals successfully throw The First Birthday Party Ever! This book is making a Global Impact promoting our feature film with this same title "The First Birthday Party Ever!" due to release by 2023-2024 & is a direct STEM innovation foundational tool for children and communities worldwide.

Party Pals Play App

Also please download our free Party Pals Play App on Apple or Google Play Stores and hover your phone or ipad over pages 3&4 of the book to see our characters come to life!

**This is an excellent product for fund raising!**

Limited Run - **"Don't Miss The Party!"** - Limited Run

"**Imagination** is more important than knowledge. For knowledge is limited, whereas **imagination** embraces the entire world, stimulating progress, giving birth to evolution." *Albert Einstein*

Be among the first to have the leading STEM technology for little thinkers.

## STEM Book Demo Page

- Step 1) Print page or hold phone to the computer or tablet screen.
- Step 2) Download the App.
- Step 3) Follow the instructions.
- Step 4) Hold your phone or tablet steady over the page whereas the entire picture is in the frame.
- Step 5) Wait 5 to 10 seconds for App to start and enjoy our presentation.

Open the door to  
"Critical Thinking!"
